# Support the cause.

---

Join an in-person or virtual AdventHealth Pink on Parade 5K as we celebrate the brave individuals in our community battling breast cancer, survivors who have won their fight and those who shine on through their loved ones.

Pink on Parade has created a celebration for men and women to support breast cancer survivors and spread awareness in Central Florida and beyond. The community has rallied around Pink initiatives for over a decade, raising over \$1.1 million for those battling breast cancer. These dollars have provided hope and healing to hundreds of community members through patient assistance, innovative research, diagnostic tests and wellness plans.

This year, we are excited to connect with even more people throughout the United States. Wherever you are, you can raise money to support women in your community. Whether you are from a small town in North Carolina or a large city in Florida, we will be incredible together this year.
