Rooted in Faith. Forward in Care.

Our principles for caring for the whole person started more than 150 years ago with the founders of the Seventh-day Adventist Church. We continue to help the people in our care create a life of whole health by healing their bodies, strengthening their minds, and lifting their spirits. Today, AdventHealth is one of the largest health care providers in the United States, with thousands of compassionate professionals working to Extend the Healing Ministry of Christ around the country.

Our Mission:

Extending the Healing Ministry of Christ

Our faith-based mission is the foundation for everything we do. We believe health should be measured in terms of the whole-person body, mind, and spirit. And it's our promise to you to help you feel whole. With world-class expertise and uncommon compassion, we are here for you through every phase of life.

AdventHealth History:

AdventHealth was formally founded in 1973, but traces its roots back to 1866 with a team of Seventh-day Adventist medical pioneers in Battle Creek, Michigan. During a time when many treatments were as harmful as the conditions they attempted to cure, our founders were considered revolutionaries for their belief that preventing disease was as important as treating it. They believed the best care didn't treat only the body, it also helped heal the mind and lift the spirit.

Since our founding, we've treated every patient as a creation of God, deserving of extraordinary whole-person care. By focusing on the whole-person and strengthening our mission, AdventHealth is a national leader in quality, safety, and patient satisfaction. Our founders' commitment and philosophy continue today in hundreds of hospitals, nursing homes, and clinics around the world.

Words to Heal by: AdventHealth Values

Quality and Service Excellence

We consistently deliver exceptional whole-person care and strive for excellence in all we do.

Community Well-Being

We are committed to improving the health, prosperity, and well-being of the communities we serve.

High Ethical Standards

We are called to uphold the highest standards, with integrity driving every decision we make and every action we take.

Stewardship

We are guided by relentless stewardship in the management of the resources entrusted to us.

Inclusiveness

We celebrate the diverse backgrounds, cultures, and experiences of our patients, visitors, and colleagues, and embrace opportunities to learn and grow from new perspectives.

Direct Admit Criteria

Common Scenarios for Direct Admission

- Community-acquired pneumonia not improving with outpatient treatment (no sepsis or hypoxia)
- Skin and soft tissue infections (e.g., cellulitis, diabetic foot ulcers) not responding to outpatient therapy
 - COPD or asthma exacerbation not improving with outpatient care (without hypoxia)
 - Bronchitis requiring further evaluation
 - Dehydration requiring IV fluids
 - Syncope with no focal neurological deficits
 - Atrial fibrillation requiring monitoring
- Uncontrolled diabetes mellitus requiring insulin adjustment after outpatient failure
 - Anemia with hematocrit <25
- CHF exacerbation without acute EKG changes
 - Gastroenteritis
 - Pyelonephritis

Admission Process

If the patient meets the criteria above or presents with a similar condition, call the House Supervisor.

A phone consult with the hospitalist provider will be arranged.

If accepted, direct admit instructions will be provided.

All patients should be evaluated the day of admission.

For Direct Admits, Call 606-598-1075

HOURS:

Monday - Friday
8:00 AM to 5:00 PM

Inpatient Dialysis

Accepting Transfers and Direct Admissions

AdventHealth Manchester now offers 24/7 inpatient hemodialysis services for adult patients requiring medical management of acute or chronic renal conditions during hospitalization. This service addresses a long-standing care gap in our region, providing timely access to inpatient dialysis close to home.

We use Tablo® dialysis systems with Crit-line monitoring, allowing for bedside dialysis within the hospital room. This eliminates the need for patient transport to off-site dialysis centers or transfer to tertiary hospitals.

Who We Serve

- Adult inpatients with acute or chronic renal failure requiring dialysis
- Patients already hospitalized at AdventHealth Manchester who develop new or worsening renal needs
- Patients from surrounding facilities may be transferred to AdventHealth Manchester for inpatient dialysis care, pending bed availability and admission criteria.

What Referring Providers Should Know

- Dialysis is provided at the bedside, 24/7, based on each patient's clinical status and care plan.
- Patients are not scheduled for dialysis in a traditional outpatient format. Treatments are ordered as medically indicated and delivered at the bedside.
- Crit-line monitoring supports volume management and enhances patient safety.
- All dialysis care is delivered by AdventHealth trained dialysis nurses.

We Accept Transfers and Direct Admits from Other Facilities

Referring facilities can now transfer patients requiring inpatient dialysis to AdventHealth Manchester, reducing travel burdens for families and supporting continued medical treatment in a safe, local setting.

AdventHealth Manchester accepts transfers and direct admissions for patients requiring inpatient dialysis. To consult with our hospitalist team, please call 606-598-1075.

Health care on your time

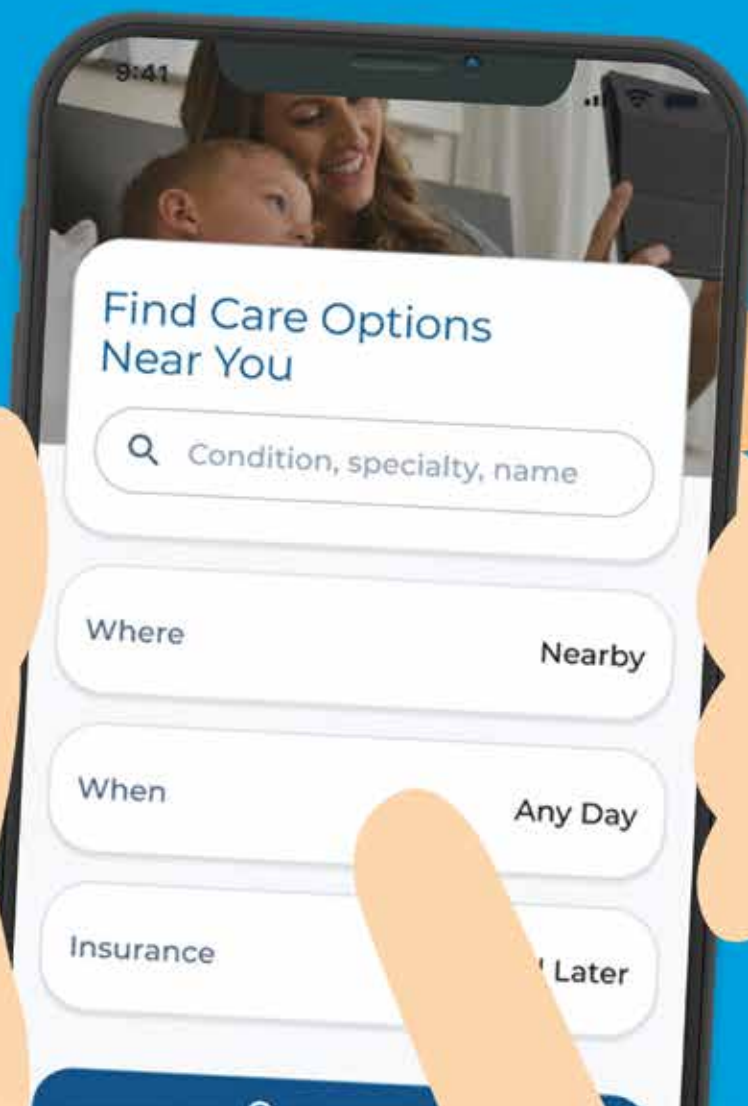

Wellness is a journey. Bring us along
with the updated AdventHealth app.

Scheduling your appointment is now easier than ever. You can self-schedule, select appointment types, update insurance information, e-Check-in upon arrival and complete any pre-appointment questionnaires online or on our mobile app.

Visit AdventHealth.com or
download the app today.

*Make sure to update your
app to enjoy the new and
enhanced features.

Requesting your medical records is as easy as 1 - 2 - 3!

Complete a request from your smartphone, tablet or computer – anytime from anywhere!

1 Access Patient Request

Go to <https://www.adventhealth.com>

- Enter “Medical Records” in the search bar
- Click on “General Interest-Medical Records”
- Scroll down to “Who to Contact”
- Choose appropriate location and click “Online eRequest Form”

or

Scan this QR code with the camera from your phone or tablet

2 Complete Online Request

You'll be guided through every step of the process

3 Review + Sign + Submit Request

You're done!

Patient Request boasts a nearly 100% approval rating
“I wasn’t sure I could do this (I’m 69), but it was very easy to follow the steps.”

“Very simple to fill out and within a short period of time.”

Electronic delivery

You'll get an email with instructions for retrieving your records. To keep them secure, you'll need a PIN that is sent in a separate email.

Mail delivery

Records will be mailed to the address you entered in the request.
