News and Upcoming Events

The AdventHealth Sharing Smiles Teams make more than 10 trips to Central America each year. This photo illustrates the compassionate care delivered by the AdventHealth Sharing Smiles team during their 2019 trip to Tarapoto, Peru. Each trip provides cleft lip and palate surgery to children, changing their lives forever.

Compassionate care and hugs abound before a cleft lip repair.

AdventHealth Foundation Central Florida is a tax-exempt, community-benefit hospital providing exceptional health care. We create excellence in partnership with thousands of people who give in different ways. Generosity has been part of our legacy since AdventHealth, formerly Florida Hospital, was founded in 1908. Join us as we continue to dedicate ourselves to the great purpose of providing hope and healing for people in our community and beyond.

For up-to-date event listings and information, visit AdventHealthFoundationCFL.com.

On the Cover

AdventHealth Foundation Central Florida is pleased to showcase Disney's Team of Heroes, a new interactive program for patients and families at AdventHealth for Children.

For more information, turn to page 3.

Executive Welcome

Daryl Tol

Dear Friends,

Sometimes life takes a turn that no one could have expected. This year, that's been the case for all of us.

Over the past months, the COVID-19 pandemic has impacted the entire world. But amid all the tragedy and loss, there's been compassion and generosity too.

Here at AdventHealth, acts of kindness have abounded: Restaurants, already battered by the shutdown, reaching out to donate food to our emergency departments. Church congregations driving to hospital parking lots, flashing their lights, honking their horns and conducting prayers in a show of support for our care teams. Companies volunteering to manufacture face shields and other protective equipment for our doctors and nurses. Even schoolchildren from around the country sending notes of thanks.

All these selfless acts make me reflect on the importance of philanthropy, in all its forms. It can't be said enough – thank you for all you have done, and will do, to make Central Florida healthy and whole.

Together, we will move forward and help our community heal.

Sincerely,

Daryl Tol

President
President and CEO, AdventHealth – Central Florida Division

Bringing Our Cover to Life:

The Disney Team of Heroes app unlocks stories, games and other entertainment offerings on mobile devices that can be enjoyed at the hospital, at home or from the comfort of a patient's room. At AdventHealth for Children, the Disney Team of Heroes app interacts with special Disney, Pixar, Marvel and Star Wars murals to bring their characters to life. You can also bring our cover to life and see first-hand how patients interact with this experience.

Search the "Disney Team of Heroes" app to download from the Apple App Store or Google Play. Then click on the Magic Moments module to activate the animation on the front cover.

Bringing a Million Smiles with Disney Magic

The Walt Disney World Pavilion at AdventHealth for Children is an amazing place. Along with a medical team that provides nationally recognized care to our littlest patients, we have partnered with The Walt Disney Company to create a magical experience to bring smiles and laughter to children and their families in our hospital.

The Walt Disney Company is committed to delivering comfort and inspiration to children facing serious illness. This commitment dates back to Walt Disney himself, who would visit with children in hospitals, often accompanied by Disney characters and animators. In 2018, Disney built on this legacy by announcing a five-year, \$100 million commitment to help reimagine the patient journey in children's hospitals. AdventHealth for Children was chosen as one of the first hospitals in Florida and in the nation to showcase this initiative.

The program was unveiled on February 6th with a ribbon cutting of epic proportions. Hallways are completely transformed with stunning murals themed from Disney, Pixar, Star Wars and Marvel which draw one's imagination into Disney's vibrant worlds. Magic Windows in the waiting rooms provide mesmerizing views into beloved Disney stories. Magic Arts on the patient floors are delightful digital screens which spark to life with characters delivering fun, animated, and inspirational messages. The Star Wars themed Play Space in the Children's ER encourages free play and socialization and allows kids to interact and make new friends. Visitors of all ages are surprised and excited to see the new Disney elements in our hospital, instantly making the hospital less scary and letting them know that we are going to help them get better.

In addition to seeing all of these classic settings and characters, children can engage with them through the Disney Team of Heroes app. Loaded with games, interactive tales, animated character encounters, augmented reality and more, the free app helps bring favorite characters to life.

For patients to enjoy full length Disney entertainment throughout the hospital as well as from their room, our IT team collaborated with Disney to bring complimentary access to the DisneyNOW app in the

hospital. The DisneyNOW app features the best of Disney TV content from Disney Channel, Disney Junior and Disney XD. This access on personal mobile devices can help ease loneliness during hospital stays.

Inpatients will be further delighted by receiving Themed Hospital Gowns and Care Packages. Featuring characters from Disney's beloved stories, these gowns are a comforting alternative to plain hospital wear – giving patients a sense of the familiar so their hospital stays are less intimidating. Patients may also be provided with a choice of Disney, Pixar, Marvel, Star Wars, or ESPN themed Care Packages filled with fun activities and keepsakes such as room decals, journals and playing cards, allowing children to personalize their hospital rooms.

Some of the magic experience can go with patients when they leave the hospital. Disney provides annual Toy Deliveries consisting of toys, books, and games. Throughout the year, staff members use these items to reward children for accomplishments such as getting their blood drawn, sitting still for a CT or being brave during an MRI.

No magic is complete without our staff who strive to provide exceptional care, compassion, comfort, and connection. Disney Institute provided customized training to hospital leaders and staff of all levels. Through this training, our hospital staff is able to personally bring the Disney magic experience to every child in need of a fun distraction. You will see our staff wearing themed staff badges, each representing the employee's favorite Disney character. These badges spark fun conversations and help create special moments.

"At AdventHealth for Children, we see first-hand the joy and reactions that come from patients and families who experience our Walt Disney Pavilion," said Dr. Rajan Wadhawan, senior executive officer of AdventHealth for Children. "Bringing that joy can be very important at what otherwise can be a stressful time in our patients' young lives."

This collaboration between AdventHealth for Children and Disney is having a huge impact as it eases the stress of a child's hospital stay. It's because of this focus that children and their families leave with positive experiences and new memories.

Talk of the Town Restaurant Group was one of the many restaurants who safely treated health care workers to delicious meals.

Generosity in the Midst of COVID-19

Communities around the world continue to face unprecedented challenges resulting from the COVID-19 world-wide pandemic. Earlier this year, the world pressed pause and AdventHealth's front-line teams pressed on to continue caring for patients. Our teams rose to meet new challenges and are now still working hard to keep us safe during this pandemic. In March and April, AdventHealth cared for more than 600 COVID-19 patients in Orange, Osceola, Seminole, Polk, Lake, Volusia and Flagler counties. During this time, individuals and communities made adjustments and sacrifices which limited the spread of COVID-19 and allowed us to begin the reopening process.

While we were busy caring for patients, the community showed an outpouring of support in ways we never could have imagined. You comforted our front lines with food, you showed up and prayed, you sent notes of encouragement and you donated supplies in honor of our health care heroes. This is generosity at its core, and this is the mission of AdventHealth—to extend the healing ministry of Christ.

Highlights of the encouragement shown to our staff during this time:

- Thousands of people sent thank you notes to lift the spirits of AdventHealth team members and entire front-line teams. Notes like this one from Kristin, brightened our team's days:

"Thank you from the bottom of my heart for all that you are doing to help our families, friends and neighbors. Not all of us may be on the front lines with you, but we are here to support you in any way we can. You are in our thoughts and in our prayers. Be safe and God Bless."

- COVID-19 relief efforts were put in place to help with things like food and lodging for on-call staff and care packages for caregivers who were impacted by COVID-19.
- AdventHealth Central Florida played a key role in designing, coordinating and monitoring a variety of ways people can express their support across the AdventHealth system nationwide. 2Your generosity contributed to the over \$2.4M in cash and in-kind gifts received to date.

Your commitment to the care teams during this critical time is deeply appreciated. The meals, masks, gloves, gowns, t-shirts, shoes and other items for our front-line teams provided encouragement to partially offset the stress they faced as they focused on fighting COVID-19.

As our community reopens, AdventHealth is committed to being partners in making that a safe process. Through CentraCare, AdventHealth is offering free access to our team of nationally leading physicians and clinical experts who can assist

businesses with re-opening through consultation, comprehensive safety plan development and key employee and guest services.

Your support is essential now more than ever, as we work to keep our teams and community safe during this time. Visit [AdventHealth.com/COVID19Relief](https://www.adventhealth.com/COVID19Relief) to learn more about how your generosity can heal and comfort.

The statistics above pertain to March – April, 2020. As COVID-19 continues, we will update the totals reported out above.

The following list of individuals and companies supported AdventHealth caregivers throughout Central Florida. A sampling of this generosity is pictured above. As the situation continues to evolve, we apologize if we've missed a name: 310 Park South, 4Rivers Smokehouse, 4Roots Farm Campus, Action Signs, AdventHealth Cancer Institute Foundation Board, AdventHealth Cardiovascular Institute Foundation Board, AdventHealth for Children Foundation Board, Affinity Waste Solutions, Athletes for Causes/Johnny Damon, AT&T, Bernie's Coffee and Tea Co., Beefy King, Scott & Jamie Cielewich, Chick-fil-A, Clubshelp.org, Colt's Pig Stand, Walt Disney World, Dr. Phillips Center for the Performing Arts, Dubsdread Tap Room, FastSigns, Florida Citrus Sports, Hard Rock, Intense Ink, Jersey Mike's, Jimmy Hula's, Jones High School, Johnny's House, Max King Realty LLC, Lynda Kusuma, LaCroix Sparkling Water, Little Caesar's Pizza, Lowe's, Mantra Brands, Victor Oladipo, Orlando Public Schools, Orlando Solar Bears, Pepsi, Pig Floyd's, Produce Alliance Foundation, Puff-n-Stuff Catering, Ravenous Pig, Salesforce, Sam's Club, Seminole County Public Schools, Sonny's BBQ, Braun Strowman/WWE, Sundance, Synchrony, Taylor Farms, Track Shack, UnderArmour, Walmart, WaWa, Winter Park Chamber of Commerce, Zaxby's

The Vascular Center of the Future

Vascular disease claims more lives than any other cause of death in the US and can strike anyone at any time, regardless of age, gender or race. In addition, symptoms can appear and become worse before a person even notices them. Statistics predict a 20% increase in the incidence of vascular disease over the next 20 years. Unfortunately, vascular disease is also the costliest disease in America.

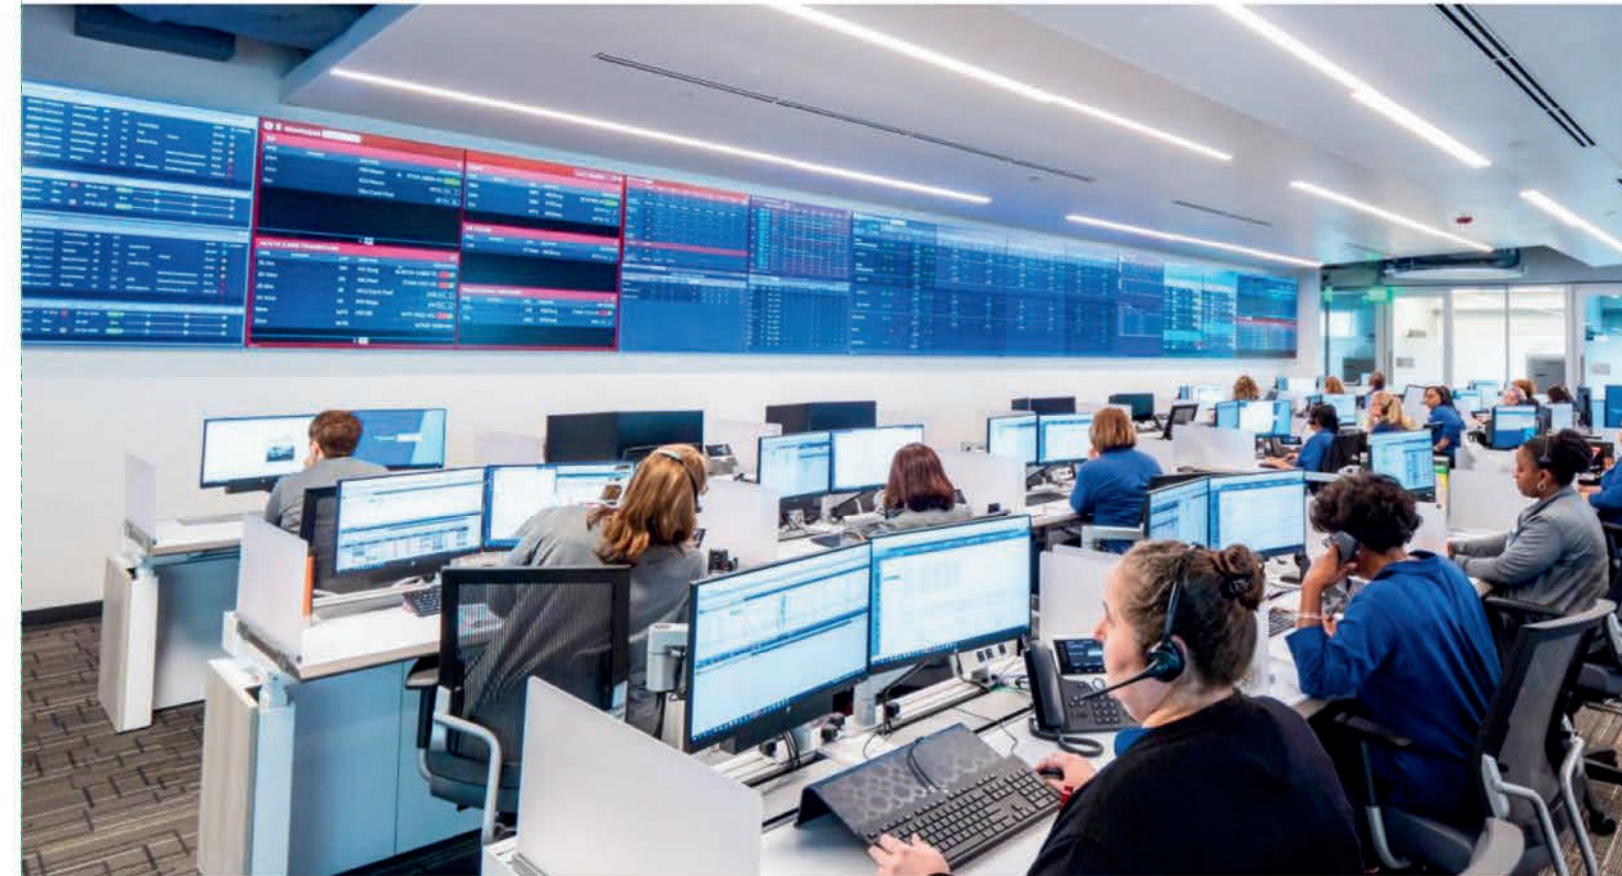

Creating a Vascular Center of Excellence was the chosen project for the Fund-a-Need initiative during the 2019 Golden Gala event. Over 2,000 Gala attendees helped raise more than \$915,000 towards creating a Vascular Center of Excellence that will help identify, prevent and treat vascular disease so people can live a whole, healthy life. Your generosity is the underpinning of the transformation of vascular care at AdventHealth.

Dr. Alan Wladis, physician leader of the Vascular Program, challenged Gala attendees by suggesting that "with a new Vascular Center of Excellence, we can become the epicenter of whole-person care by detecting, protecting and treating patients with these costly diseases."

The Vascular Center of Excellence can identify those at risk of strokes, prevent negative outcomes such as limb amputations and save thousands of lives when emergency surgery is required. The Center will include a hybrid operating room for acute care vascular surgeries, DARE TO C.A.R.E. vascular disease screening program and a dedicated limb care program. Your compassionate generosity is making all of this possible!

Vice President of AdventHealth's Cardiovascular Institute Kimberly Bell shared, "Not only can we advance in prevention with our new Vascular Center of Excellence, we can care for more complex, emergency cases by creating a new vascular hybrid operating room where we can save 1,000 more lives a year from catastrophic life-threatening emergency procedures."

You are part of the community who came together to share the vision of a new Vascular Center of Excellence within AdventHealth's Cardiovascular Institute. Together, we are extending the healing ministry of Christ.

From left to right: (top far left)

Dr. Alan Wladis challenged Gala attendees to support the Center

Kimberly Bell shared the amazing care that will be available in the Vascular Center of Excellence.

Gala attendees acknowledged the members of the Vascular Center of Excellence team.

AdventHealth's First Ever Health Care Headquarters

As AdventHealth continues to grow and expand, making sure our patients receive the most streamlined and efficient health care experience possible can present challenges. In order to deliver innovative, whole-person care to our patients, AdventHealth, in partnership with GE Healthcare, opened the nation's largest health care command center, Mission Control, in August 2019.

AdventHealth's Mission Control is committed to making clinical operations across the health care system as effective as possible. Using artificial intelligence to inform and guide decision-making in areas such as emergency vehicle dispatch, smooth patient transfer between units and facilities, and prioritization of placement and treatment, the team significantly impacts patient interactions at AdventHealth.

From Mission Control's 12,000-square-foot, high-tech center on the Orlando campus, the team oversees activity at AdventHealth facilities in Orange, Seminole and Osceola counties. More than 50 employees from departments including nursing and emergency services to dispatch and transportation, oversee the control center 24 hours a day, seven days a week.

"AdventHealth is at the leading edge in deploying this technology to help provide the best, most efficient care possible for our patients," said Daryl Tol, president and CEO of AdventHealth's Central Florida Division. "While the command center is invisible to patients, our team of experts will be there around the clock to make sure patients receive the care they need, quickly and safely."

Mission Control will continue to evolve as the AdventHealth system evolves, setting new industry standards and simultaneously positioning AdventHealth as the leader in health care technology. AdventHealth is thrilled to provide an efficient health care experience to our patients.

AdventHealth for Children's Second Annual Day of Giving

Having a child in the hospital with a serious illness, can turn a parent's world upside down. Families often struggle to make ends meet while they focus on their child's health and wellbeing. No parent should have to decide between staying by their child's bedside and working to pay the bills, but many face this reality and are forced to put their jobs on hold to be present for their sick child. AdventHealth for Children's Day of Giving was created in 2018 to help meet the urgent needs of families whose children are hospitalized.

To kick-off the annual event, Brown Parker & DeMarinis Advertising hosted a launch party at Isleworth Golf and Country Club on November 12. AdventHealth for Children Board Members, AdventHealth physicians, AdventHealth Champions for Children members, patients and local community members began the night with appetizers, fellowship and acoustic music. Throughout the dinner they heard from iHeart media personalities and patients like D.J. Roberts, Sophia Maggio, Ezekiel Lopez and Remy Vice. The night was a huge success and raised over \$38,300.

The event on December 18, featured a four-hour live radio broadcast with iHeart Media's Magic 107.7 FM. In between Christmas melodies, callers were able to chat with local celebrities like former Orlando Magic player Bo Outlaw, 4Rivers Smokehouse owner John

Rivers, and former Miss America Ericka Dunlap. Champions for Children volunteers also handed out personalized cakes donated by Nothing Bundt Cakes to the hospital staff on each of the patient floors.

In addition to the celebrities and iHeart Media personalities, a few children shared their personal experiences inspiring and reminding us all what this event truly means for families in our community. D.J., a thirteen-year-old bone cancer survivor and amputee said,

"It was very inspiring to help participate in this event and to know that sharing my experience can help others is so meaningful to me."

Thanks to hundreds of generous donors, parents and families received help to cover basic needs such as gas, utilities, groceries, and monthly rent payments. Your kindness makes their journey a little easier.

AdventHealth Foundation Central Florida would like to extend our deepest thanks to iHeart Media, our incredible children's board members, Champions for Children volunteers, local celebrities, Walt Disney World and Pepsi for their contributions to making this a successful event. In addition, we'd like to give a huge thank you to the compassionate donors who generously gave over \$128,000 dollars to benefit families with hospitalized children.

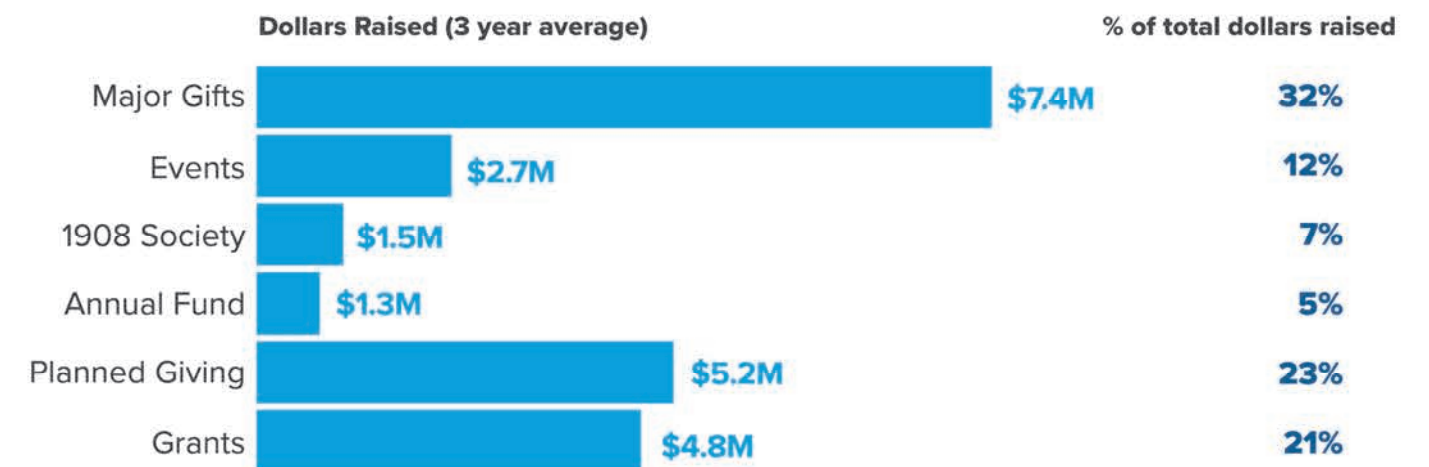

2019 Financial Impact

AdventHealth has been blessed by your kindness and philanthropic spirit. You play a fundamental role in extending the healing ministry of Christ. We are grateful to every individual, family and organization that enables us to provide exceptional, life-changing care to the community.

Every gift, large or small, plays an essential role in helping deliver whole-person health care by supporting the mind, body and spirit of each patient. Many donors give at an annual fund level of less than \$10,000, while some are able to invest millions through major gifts. The internal culture of giving at AdventHealth is evidenced by the large number of AdventHealth employees who make contributions through the 1908 Society. An increasing number of donors decide to leave a legacy through a planned gift such as a will, trust, bequest, retirement account or estate gift.

The 2019 financial report below demonstrates how our community supported patients and families at AdventHealth. One hundred percent of every dollar entrusted to AdventHealth Foundation Central Florida directly impacts those we serve. Thank you for your healing generosity. We can't express enough our immeasurable gratitude for YOU and your support in extending the healing ministry of Christ.

“Once I retired, I still had the desire to help and was delighted to accept the invitations to serve as a board member for AdventHealth Orlando Board and AdventHealth Hospice Care Board. It has been a wonderful experience to help bring a community perspective to what we do as a healthcare system. It is my honor to support the mission of AdventHealth Hospice Care in extending whole person care to patients and their families through compassionate end-of-life care. I believe serving others is how we best honor God; being other-centered.”

“I am involved with AdventHealth Global Missions because the people we serve are kids and they deserve the opportunity to grow up healthy. If you empower the children, you empower the country.”

Catherine Loe, MD

Volunteer of the Month
May

“ Giving to 1908 enables me to share my blessings with those who are going through a rough patch. I am proud to be a founding member of one of the many 1908 beneficiaries! Every dollar I donate reaches the group I choose to support, and I encourage all AdventHealth employees to consider giving.”

Volunteers of the Month
June

Kristy Dutton

Susan Sherman

“ I co-chair AdventHealth Altamonte's Heroes for Babies initiative because I was so blessed to have support during my childbirth – the difference that support makes in the life of a baby is the reason I'm involved.”

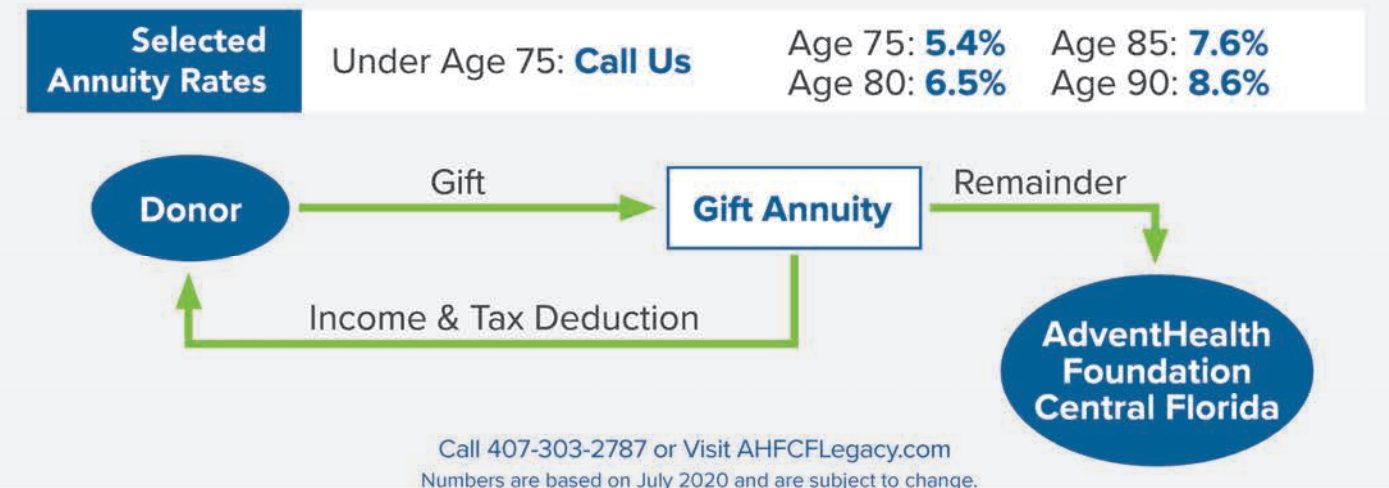

Kristy Dutton

“ Supporting AdventHealth allows me to fuel my passion for health care. The team is exceptional with the outstanding support they provide to the community and as a volunteer that's easy to get behind.”

Susan Sherman

AdventHealth Foundation Central Florida Charitable Gift Annuity

**Volunteer of the Month
July**

“Usually during a person’s life or career there’s something that really hits them to say what we are doing is really worthwhile. I had that moment on my first Cleft Lip and Palate Trip with AdventHealth Sharing Smiles to Villahermosa, Mexico. When I saw those kids, and a day later I saw the work that the surgeons had done, I knew in my heart that lives were immediately changed.”

Dick Phoebus

36,000+
DIABETES PATIENTS
RECEIVED CARE

AdventHealth Diabetes Institute

**Volunteer of the Month
August**

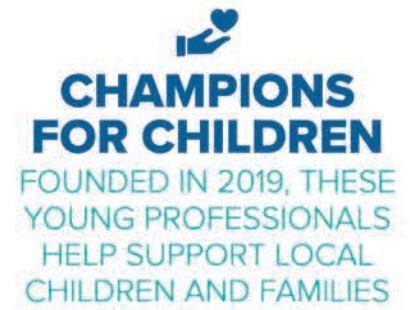

“I’ve always wondered, ‘will there ever be a ‘cure for cancer?’ It has been very rewarding to hear first-hand from AdventHealth doctors as they talk about the incredible progress that has and is being made toward that ultimate dream – all from right here in Central Florida!”

Bill Finrock

This list recognizes all gifts of \$1,000 or more received in 2019. Donors’ cumulative lifetime giving is recognized beginning on page 10.

AdventHealth for Children

Thank you to our 2019 Donors (cont.)

Volunteer of the Month September

“Supporting AdventHealth for Children is truly a passion project for me. I’m called to give back and encourage others to get involved in doing the same. Watching my peers and community provide support to children and families in need is inspiring beyond measure. I’m so thankful to play a role in such an impactful cause.”

Volunteers of the Month October

“I thank the staff and doctors at AdventHealth and Pink on Parade for their love, kindness and support to me and our community of breast-cancer patients. To have the love and support of others changes your life completely!”

Linda and Brian Chisholm

Volunteer of the Month
November

“The reason why I’m so passionate about AdventHealth is because of the state-of-the-art medical care they provide to Central Florida. With some of the best doctors and specialties in the country, they remain community oriented. They embrace the community and the community embraces the hospital. I also love that AdventHealth works globally through Sharing Smiles. My family and I have participated in a couple of their missions and it is a life changing experience for the patients as well as the volunteers.”

Generosity Spotlight

“I am fortunate I found AdventHealth and I am so blessed to have all my doctors there. I am so grateful for the care that I get, and I want to help other people who don't have the financial means to get connected with the care they deserve. Knowing that I can help others is my motivation to give back to the community.”

 **\$1 MILLION**
GIFT
COMMITMENT
WAS MADE TO SUPPORT
A STRUCTURAL HEART
PROGRAM LAB

AdventHealth Cardiovascular Institute

Personal Best:

From Heart Patient to Ninja Warrior

In his early 40s and in above average physical health, Vinny was training for his first appearance on the television show “American Ninja Warrior.” The show features hundreds of competitors who attempt to complete strenuous obstacle courses of increasing difficulty. Just over a year into his training, Vinny started experiencing discomfort in his chest and abdominal area.

Vinny had just finished one of the more difficult courses when he started to feel pain that he compared to a pulled muscle. After sitting in his air-conditioned car to cool down, he felt well enough to return to his course training. But the pain returned. He went about his day, thinking he had pulled a muscle.

Later, Vinny was sitting in traffic when the pain returned. This time he wasn't doing any physical activity so he started to get concerned. Vinny made his way to the emergency room at AdventHealth Altamonte Springs where an electrocardiogram (EKG) revealed some alarming signs.

The nurses expressed surprise that he was awake and able to talk given his condition. Immediately, he was rushed to the cath lab to better assess his heart function. Thankfully, the team of specialists was able to find and remove a clot that was in the main heart valve. Vinny's condition is often called a widow-maker or a heart attack that occurs when there's 100% blockage in the left anterior descending artery.

Today, Vinny feels fortunate to be back in training for the “American Ninja Warrior” competition. Before his heart attack, Vinny's only mission was to train and compete in the popular series. Now, he has an

additional mission — to educate individuals and support cardiovascular patients like him by raising money through AdventHealth Foundation Central Florida.

Vinny's eye-opening experience is an example of why we all need to manage our health, no matter how old or how active we are. Could you be at risk for heart disease in the future? To get ahead of a potential diagnosis, be aware of the first symptoms of heart failure. Some may not seem like a big deal but as the disease progresses, symptoms will get worse. If you are experiencing or begin to experience any of the following, talk to your doctor about possible causes:

- Build-up of fluid that leads to swelling in your feet, ankles, legs or abdomen
- Chronic coughing or wheezing
- Confusion or impaired thinking
- Dizziness
- Fast heart rate
- Fatigue or weakness
- Nausea or loss of appetite
- Shortness of breath

While heart disease is not always the cause of these symptoms, you and your doctor can work together to determine whether further testing and treatment are necessary.

Knowledge is power and knowing the symptoms to be aware of is very important. An annual wellness exam also plays a key role in the best preventive care for your health. Regular conversations with your doctor should include discussions of any recent changes in your medical history to prevent potential health risks down the road.

Our community proudly supports Vinny as he continues to heal and work toward returning to the “American Ninja Warrior” competition. His incredible story is a reminder of how important it is to be aware of your health at every age, no matter your lifestyle.

Pledge Your Birthday or Life Milestone with a Personalized Giving Page

Are you inspired by Vinny's Story? Do you have a special event coming up? Celebrate your next birthday, anniversary or special life milestone by creating a personalized online-giving page at AdventHealth.com/DIY. Invite your friends and family to join you in supporting your favorite cause at AdventHealth. How will you celebrate generosity?
