## *Acupoint Injection Therapy (AIT)*

AIT is a recent innovation of traditional acupuncture that aims to enhance and prolong the effect of stimulation of acupuncture points. A small amount of vitamin or plant extract is injected in an acupuncture for the purpose of reducing inflammation and pain with fewer side effects. All injections require an initial session.

*Acupoint Injection Assessment with Treatment (30 min.)* ..... \$40

*Acupoint Injection Traumeel (15 min.)* ..... \$25/pml

Traumeel is indicated for the treatment of contusions, lacerations, fractures, sprains, post-operative wounds, repetitive or overuse injuries (such as tendonitis, bursitis, epicondylitis, etc.), and for minor aches and pains like backache, muscular aches, and arthritis.

*Acupoint Injection B12 (15 min.)* ..... \$20/pml

Vitamin B12 (Methylcobalamin) injections help increase energy, metabolism and benefit the brain, nervous system, and assist with weight loss, fatigue, heart problems, neurological damage, mood changes, muscle weakness and hormone imbalances.

*Acupoint Injection Weightloss B12 & Lipoden (15 min.)* ..... \$25/pml

Lipo-den injections help to speed up the process of losing weight by enhancing the function of the liver, making the body process fats and carbohydrates more efficiently.
