

## Prescription Drug Coverage

Whichever medical plan you choose, you will receive prescription drug coverage through AdventHealth Rx Plus Pharmacy and RxBenefits, in partnership with CVS Caremark. AdventHealth Rx Plus Pharmacy lowers your health care costs while providing convenient home delivery.

There are four types of prescription drugs covered under our medical plans:

- 1. Generic (Tier 1).** Low-cost generic drugs are at the lowest copay level.
- 2. Formulary (Tier 2).** These are primarily brand-name drugs that have been determined to be more effective, less costly or to have fewer side effects than similar medications.
- 3. Non-Formulary (Tier 3).** These are mostly high-cost brand-name drugs with lower cost generic and/or brand alternatives. These drugs have been selected by the plan based on review of the relative safety, effectiveness and cost of the many brand-name drugs on the market.
- 4. Specialty.** These medications treat complex conditions and require extra care. Specialty medications are filled through the Specialty Pharmacy Program by AdventHealth Rx Plus and Expedien Pharmacy, providing a high-touch, patient-centered service and positive experience for our members.

### Take Advantage of Rx Plus Pharmacy

AdventHealth Rx Plus Pharmacy's top priority is to ensure your prescriptions are filled safely and delivered quickly so that you and your loved ones feel whole and cared for. You can expect best-in-class prescription turnaround times and access to a dedicated team ready to answer questions and provide support.

Your AdventHealth Rx Plus Pharmacy is part of the Epic platform. This allows you and your loved ones to manage prescriptions through the same user-friendly AdventHealth MyChart portal you use for other aspects of your care.

**Please note:** Maintenance medication coverage is limited to one 30-day grace fill at a local pharmacy, then 90-day supplies are required to be filled by AdventHealth Rx Plus Pharmacy.
