AdventHealth Medical Group Internal Medicine at Orlando are a part of AdventHealth's Internal Medicine Residency Program. It is a practice of Internal Medicine physicians specializing in the diagnosis and comprehensive care of adults with chronic illnesses, infectious diseases and complex health issues. As a teaching facility, we are up-to-date on all the latest, cutting edge medical information, education, techniques, and procedures.

During your visit you may see a resident physician – a physician who has already graduated from medical school but is here for additional training and experience in a supervised setting. Each resident physician is overseen by an experienced “faculty” physician, so you essentially receive two opinions.

You can always expect your physician to be extremely thorough and take the time needed to answer all your questions.
