

APPLICATION FOR CRITICAL CARE

ERAS

We accept applications via ERAS. While we accept applications through ERAS, we do not participate in the NRMP match. Our program accreditation ID is 1421114168

You can apply to both tracks (critical care medicine and neurocritical care) through ERAS.

Frequently Asked Application Questions

Q: Do you sponsor visas?

A: If necessary AdventHealth sponsors J1 and H1B visas.

Q: Do you accept international graduates?

A: Applicants must have completed residency or fellowship training at an ACGME accredited program. If all of your training was completed outside of the United States then you would not meet this requirement. The exception would be programs that are accredited by the RCPSC (Royal College of Physicians and Surgeons of Canada) as they have co-standards with the ACGME.

Q: Can I send you my CV/LOR early for consideration?

A: Application components sent by email will not be evaluated. All components must come through ERAS.

**Questions can be sent to adventhealthcriticalcare@gmail.com
or by emailing the coordinator**
