

ADVENTHEALTH ORLANDO

INTERNAL MEDICINE RESIDENCY

AdventHealth Mission

- **“Extending the Healing Ministry of Christ”** while embracing and welcoming people from all religions and backgrounds.

Faculty

- Core faculty are experienced and enthusiastic teachers in both inpatient and outpatient settings.
- Subspecialty faculty are superior clinicians and every specialty is represented with multiple members.
- Ample physician support through availability of Behaviorist faculty as well as dedicated core faculty. Our Behaviorist and core faculty will help you deal with stresses during your residency, offering you support and helping you succeed.

Facilities

- All core training is at one site for both inpatient and outpatient care.
- Largest hospital in Central Florida with 1400 beds.
- Tertiary care level with transplantation of kidney, liver, pancreas, heart, lung, and bone marrow.
- New AdventHealth for Women
- New conference facilities.
- New Emergency department is the largest in Central Florida.
- New Simulation center for use by trainees.
- Imaging facilities for every type of procedure.
- Largest cardiovascular program in the country with completely new facilities.
- Large cancer center with link to Duke University.
- New Endocrine and Diabetes Center on campus
- Translational Research Institute opened December 2011

Patients

- Extraordinary mix of rare and common medical problems.
- Diversity of age, gender, and culture.

Curriculum

- Rotation in every medical subspecialty is available
- Multiple elective options in second and third years
- Daily morning report at 11:20am on inpatient rotations
- Daily core didactic conference at noon
- Board prep conferences and special sessions
- Comprehensive Critical Care rotation
- Ultrasound Training Course

Research

- Many opportunities to be involved in clinical or basic science research
- Orlando VA Medical Center, Burnham Institute, and Florida State University will partner with AdventHealth for grants and projects.
- Resident and faculty research teams will develop research proposals together

Medical School Affiliations

- Florida State University College of Medicine has senior clerkships for students at the regional campus.
- Loma Linda College of Medicine has senior clerkship options for students.

Fellowships

- Palliative Care Fellowship started
- Critical Care Medicine Fellowship started in July of 2020
- Further fellowships in Internal Medicine subspecialties are in the planning stages.

Program Operations

- A Night Float team will take the on-call responsibilities for our inpatient ward teams.
- ICU resident on-call responsibilities will be no more frequent than every 4th night.

Personal Attention

- Our residency program size allows for personal attention and support.
- We welcome input to program development from our residents.
- Medical center philosophy of whole person care
- Medical mission trips encouraged for residents and faculty
