

# Know Where To Go

Your child's health needs can require different levels of care. Use this chart for help in determining whether you should go to an emergency room, visit an urgent care clinic, see your pediatrician or receive care through our AdventHealth app.

	Emergency Room	Urgent Care	Primary Care	Virtual Visit
Abdominal Pain	X

# Your Pediatric Care Network

## Emergency Care

**Dedicated Emergency Care Created Just for Kids**

AdventHealth for Children offers dedicated, child-friendly emergency pediatric care in more than 20 convenient locations across Central Florida. Scan to find a location near you.

## Pediatric Primary Care

**Expert Care in Your Neighborhood**

We believe a healthy childhood creates a foundation for lifelong wellness. AdventHealth for Children pediatricians are here for your child at every age and stage. Scan here to find a pediatrician in your neighborhood.

## Centra Care

**Urgent Care for Kids and Adults**

With more than 30 urgent care locations, including 2 Centra Care Kids, in Central Florida, Centra Care's board-certified adult and pediatric-trained providers are accessible when you need us — seven days a week — with some

centers open until midnight. Scan to find the location nearest you or make an online reservation.

## Virtual Visits

**AdventHealth App**

Now your child's urgent care appointment can happen from your couch at home, seven days a week, 24 hours a day. Our providers can conduct a doctor's appointment via secure video chat on your smartphone or tablet. After

the diagnosis, they can even submit a prescription to your preferred pharmacy — if needed. Scan to download the AdventHealth app on the Apple App Store or Google Play to access virtual care.

**In the case of an emergency, head to your local ER or call 9-1-1.**  
**For long-term care, see your primary care provider.**
